LBB1-924	24	1	10000	8700	7100	5000	2	24
<b>RATED WEIGHT CAPACITIES IN POUNDS</b>								

Load balancer basket slings are made to offer better balance for support of your light, bulky loads. Stiffeners are used at the base of the eyes to deter the body of the sling from folding down the middle. Load balancer basket slings are for use in a basket hitch only.

Do not exceed rated capacities. Sling capacity decreases as the angle from horizontal decreases. Slings should not be used at angles of less than 30 degrees.
